INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Crete Park District
Crete, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **CRETE PARK DISTRICT** (the "District"), as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material mistreatment, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material mistreatment.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material mistreatment of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of the significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of April 30, 2020, and the respective changes in financial position for the year then ended in accordance with the accounting principles general accepted in the United States of America.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, and the management's discussion and analysis, be presented to the supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted by the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with the management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying financial information listed as other supplemental information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CRETE PARK DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Crete Park District (the "District") we offer readers of the District's financial statements this narrative overview and analysis of the District's financial performance during the fiscal year ended April 30, 2020. We encourage readers to read this information in conjunction with the District's financial statements.

Financial Highlights

The District's total net position at April 30, 2020 was \$3,775,647, a decrease of \$27,442 from April 30, 2019.

During the year, the District's governmental activities had revenues of \$1,029,805 in the year ended April 30, 2020 as compared to revenues of \$1,074,550 in the prior year. The District's governmental activities had expenses of \$1,057,247 in the year ended April 30, 2020 as compared to expenses of \$1,037,827 in the prior year. This represented a 4.16% decrease in revenues and 1.87% increase in expenses. The District purchased a 2019 Ford F-250 pickup truck for \$26,251. The District also paid off the 2018 general obligation limited tax park bonds in the year ended April 30, 2020 with the final principal payment of \$235,235. The impact of the COVID-19 shut down affected revenue in both the general and recreation funds. As of April 30, 2020, there were \$22,932 in credits for cancelled programs that were owed to customers. This liability reduced the program revenue of the recreation fund for the year ended April 30, 2020. Budget cuts were made and implemented immediately.

Overview of the Financial Statements

Management's discussion and analysis serves as an introduction to the District's financial statements. The basic financial statements include the Statement of Net Position, Statement of Activities, Governmental Funds Balance Sheet, Governmental Funds Revenues, Expenditures and Changes in Fund Balances, and Notes to Financial Statements.

Government-wide Financial Statements

The Government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position includes all of the District's assets, deferred outflows, liabilities and deferred inflows with the difference reported as net position. Increases and decreases in net position serve as a useful indicator of change in net position and whether the financial position of the District as a whole is improving or deteriorating. Non-financial factors, such as changes in the District's property tax base and condition of the District's buildings and equipment, should be considered regarding the overall health of the District.

The Statement of Activities reports how the District's net position changed during the current fiscal year. All revenues and expenses are included regardless of when cash is received or paid.

Fund Financial Statements

A fund is a group of accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are reported separately while all other funds are combined into a single aggregated amount.

Governmental funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and the balance of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the short-term.

Both the governmental funds balance sheet and governmental funds revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the difference between the government-wide and fund financial statements.

In addition to the basic financial statements, notes to the financial statements provide further information to the reader and should be considered an integral part of the financial statements.

Budgetary comparison schedules are also provided as required supplemental information, which is useful in comparing how District expenditures were made in comparison to budgeted amounts.

Financial Analysis

Net position may serve, over time, as a useful indicator of a District's financial position. The District's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$3,775,647 at the end of the fiscal year. Of the net position balance, \$3,952,602 is invested in capital assets, net of related debt, \$412,693 is restricted and unrestricted net assets had a deficit of \$589,648.

Twenty-one percent of the District's assets and deferred outflows of resources at April 30, 2020 were current and consisted of cash, investments and property tax receivables. The remainder was capital (tangible) assets and deferred outflows of resources. Sixty-four percent of liabilities were current liabilities. The remaining liabilities consisted of pension liabilities. Restricted net position of \$412,693 was eleven percent of total net position. Of the remaining net position, \$3,952,602 is invested in capital assets and unrestricted net assets had a deficit of \$589,648.

The following summarizes the revenue and expenses of the District's governmental activities for fiscal year ended April 30, 2020. Governmental activities decreased the District's net position by \$27,442.

Net position, end of year	<u>\$ 3,775,647</u>	<u>\$ 3,803,089</u>

The statement of activities shows the nature and source of the changes in net position. This year's expenses are quite similar to the previous fiscal year with a major portion of revenues used to fund recreation expenses.

Budget

The District did not amend their budget during the fiscal year. The actual funds received for the general fund were \$274,210 which was \$15,435 lower than budgeted. Actual expenditures for the general fund of \$264,988 were \$350,012 lower than budgeted, due mainly to conservative spending practices.

Financial Analysis of District's Funds

	General	Recreation	Debt Service	Capital Projects	Other Funds	Total
Total revenues	\$ 274,210	\$ 429,707	\$ 241,781	\$ -	\$ 84,107	\$ 1,029,805

The fund balance of the capital projects fund and other funds are restricted for specific purposes. The recreation fund and debt service fund both have deficit fund balances which will be eliminated with future surpluses. The general fund balance of \$64,735 is unassigned and can be used for any purpose.

Capital Assets

The District's investment in capital assets, net of accumulated depreciation was \$3,952,602 as of April 30, 2020. This was a decrease of \$63,335 from April 30, 2019 and was due to depreciation expense exceeding fixed asset additions. The following summarizes capital assets.

	April 30, 2020	April 30, 2019

Net capital assets	<u>\$ 3,952,602</u>	<u>\$ 4,015,937</u>

Additional information regarding capital assets may be found in the accompanying notes to the financial statements.

Debt

As of April 30, 2020, the District had general obligation bonds outstanding of \$241,120. This balance is scheduled to be paid in December 2020.

Additional information regarding debt may be found in the accompanying notes to the financial statements.

Economic Factors Bearing on the District's Future

At the time these financial statements were prepared, the District was aware of the following circumstances that could significantly affect its financial health in the future.

- The District's service area is the same as the boundaries for the Village of Crete; as such the District's ability to generate tax receipts is directly linked to the Equalized Assessed Valuation (EAV) of the property within the Village of Crete. The EAV increased to \$148,832,662 from \$146,071,047. The rise in assessed valuation will provide more property tax income, but is also likely to result in a greater number of tax objections to lower assessments.
- State changes to the minimum wage may have significant impact on the District.
- Much of the District's equipment and buildings are outdated and will need attention in the future.
- The Staff developed a Strategic Plan, Vision 2020, to guide us through future planning. It assisted the District in identifying strengths and weaknesses. The following are the results of the Strategic Plan:
 - Goal to increase space for administration, therefore improve efficiency and to improve the visual appeal of Crete Park District.
 - We have developed staff newsletters to increase communication, developed the Heritage Park Concession stand for rentals to increase revenue, and increased social activities with staff and board.
 - A new long-range plan was completed and a long-term budget was developed. The plan will help the District budget for anticipated capital improvements and assist in keeping equipment updated.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those interested. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Treasurer, Crete Park District, 515 First Street, Crete, Illinois, 60417.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CRETE PARK DISTRICT (the “District”) is located in Crete, Illinois (Will County). The District was organized under state law to provide recreation services to local residents in Crete, Illinois.

In March 2020, the COVID-19 Coronavirus resulted in illnesses and government actions which disrupted economic activity across the United States. As a result of the spread of COVID-19 and the resulting stay-at-home orders issued by the State of Illinois, the District anticipates disruptions to revenue, and its workforce. The extent and duration of these disruptions may be only temporary, however, the related financial impact and duration cannot be reasonably estimated at this time.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District’s accounting policies are described below.

A. Reporting Entity and Its Services

Accounting principles generally accepted in the United States of America require that the financial reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Based upon these criteria, there are no agencies or entities whose financial data should be combined with and included in the financial statements of the District. Also, the District is not considered a component unit of any other governmental entity.

B. Basis of Presentation

The District’s basic financial statements consist of government-wide financial statements and fund financial statements.

Government-Wide Financial Statements

The Statements of Net Position and Activities report the overall financial activity of the District (not by fund). The Statement of Net Position reports the District’s assets and liabilities with the difference reported as net position. The Statement of Activities compares recreation expenses with program revenues. Program revenues include charges to participants of recreation programs and grants and contributions that are restricted to funding recreation programs. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The District records transactions by funds to aid financial management and demonstrate legal compliance. Major individual governmental funds are reported as separate columns in the fund financial statements and all other funds are combined under a single column. The major funds are the general, recreation, debt service and capital projects funds. Following is a brief description of the major funds used by the District.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

General Fund – The general fund is the general operating fund of the District and accounts for all revenues and expenditures not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. In addition, general operating expenditures and the capital improvement costs that are not paid through other funds are paid from this fund.

Recreation Fund – The recreation fund accounts for revenues and expenditures related to recreation programs offered by the District.

Debt Service Fund – The debt service fund accumulates resources for, and payment of general long-term debt principal, interest and related costs.

Capital Project Fund – The capital project fund accounts for financial resources to be used for the acquisition or construction of capital facilities and equipment.

The other governmental funds of the District account for property taxes and other resources whose use is restricted for a particular purpose.

C. Basis of Accounting

Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the Balance Sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in fund equity. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter (defined as within 60 days after the fiscal year-end) to be used to pay liabilities of the current period. Material revenues susceptible to accrual include real estate tax, replacement tax and grant revenue. Expenditures are recognized when the related fund liability is incurred.

The government-wide statements (Statement of Net Position and Statement of Activities) are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

D. Investments

Investments consist of investments held in an Illinois Funds Money Market Account and are carried at cost, which approximates market.

E. Capital Assets

The accounting treatment for property, plant and equipment (capital assets) depends on whether the assets are reported on the government-wide or fund financial statements. On the government-wide financial statements, capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is included in recreation expense on the Statement of Activities, with accumulated depreciation reflected on the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Building	15 – 60 years
Playground equipment	10 – 30 years
Maintenance equipment	5 – 20 years
Office equipment	3 – 10 years
Site improvements	3 – 60 years
Vehicles	5 – 15 years

The minimum capitalization threshold is any item with a total cost greater than \$2,500.

On the fund financial statements, capital assets are accounted for as expenditures of the governmental fund upon acquisition.

F. Compensated Absences

The District personnel policy permits employees to accumulate earned but unused vacation days, compensatory time and sick pay benefits. No liability is recorded for unpaid accumulated sick leave, since it is the District's policy to not pay unused sick leave when employees separate from the District. On the fund financial statements, accrued vacation and compensatory time are recorded in the general or recreation funds when payable (i.e. upon resignation or retirement). On the government-wide financial statements, accrued vacation and compensatory time are recorded when earned.

G. Deferred Outflows/Inflows of Resources

The District reports deferred outflows of resources on its Statement of Net Position. Deferred outflows of resources represent a consumption of net position that applies to future fiscal years, so will not be recognized as an outflow of resources (expenditure or expense) until then. The District only has one item that qualifies for reporting in this category, the outflows related to the pension, which represents pension items that will be recognized in future periods.

The District also reports deferred inflows of resources on its Governmental Funds Balance Sheet and Statement of Net Position. Deferred inflows of resources represent an acquisition of net position that applies to future fiscal years, so will not be recognized as an inflow of resources (revenue or reduction of expenditure or expense) until then.

CRETE PARK DISTRICT

NOTES TO FINANCIAL STATEMENTS

April 30, 2020

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

The District has two items that qualify for reporting in this category:

- Deferred inflows related to pensions, which represent pension items that will be recognized in future periods.
- Levied property taxes intended to finance the next fiscal year, which will be recognized as revenue in the next fiscal year.

H. Property Taxes

Annually, the District's Board adopts a property tax levy ordinance. Upon adoption by the Board, the District establishes a legal right to revenue from property tax assessments. Property taxes are recognized as a receivable at the time they are levied. Property tax revenue is recognized during the fiscal year they are intended to finance. In addition, revenue under the modified accrual basis (fund financial statements) is not recognized unless it is also available (collected within 60 days after fiscal year end). Property tax collections and property taxes receivable not recognized as revenue are reported as deferred inflows of resources. Property tax revenue on the fund financial statements is allocated to each fund in accordance with the applicable fund levy amounts.

The 2018 levy was intended to finance the fiscal year ended April 30, 2020. The most recent levy (2019) is intended to finance the next fiscal year. Therefore, property taxes receivable related to this levy are recorded as deferred inflows of resources. Property taxes receivable are recognized on the levy date.

The District has not recorded an allowance for uncollectible property taxes for the 2019 levy, since it is estimated that uncollectible amounts, if any, will be insignificant. All uncollected taxes relating to prior year's levies have been written off.

Significant dates for the 2019 levy are as follows:

Lien Date	January 1, 2019
Levy Date	November 20, 2019
Tax Bills Mailed (at least 30 days prior to collection deadline)	
Will County First Installment Due	June 3, 2020
Will County Second Installment Due	September 3, 2020

Property taxes are billed and collected by the County Treasurer of Will County, Illinois. Substantially all of the collected taxes for the 2019 tax levy will be received by the District between June 2020 and December 2020.

I. Eliminations and Reclassifications

In the process of aggregating data for the government-wide Statement of Activities, some amounts reported as interfund activity and interfund balances on the fund financial statements may be eliminated or reclassified.

J. Fund Balance

Equity is classified as fund balance on the fund financial statements and displayed in five components:

- Nonspendable includes amounts not in spendable form or amounts required to be maintained intact legally or contractually.
- Restricted includes amounts constrained for a specific purpose by external parties.
- Committed includes amounts constrained for a specific purpose by a government using its highest level of decision-making authority (the Board of Commissioners for the District). This formal action must occur prior to the end of the reporting period, but the amount of the committed balance may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Commissioners that originally created the commitment.
- Assigned includes general fund amounts constrained for a specific purpose by the Board of Commissioners or by an official who has been delegated authority to assign amounts. The Board of Commissioners has not delegated this authority as of April 30, 2020. Additionally, all remaining positive spendable amounts in government funds other than the general fund, that are neither restricted nor committed, are considered assigned. Assignments may take place after the end of the reporting period.
- Unassigned includes residual positive fund balance within the general fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include deficits of any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

In circumstances where an expenditure relates to amounts available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance and unassigned fund balance.

K. Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District uses restricted resources when an expense is incurred before using unrestricted resources.

L. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. DEFINED BENEFIT PENSION PLAN

IMRF Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 $\frac{2}{3}$ % of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 $\frac{2}{3}$ % of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2019, the following employees were covered by the benefit terms:

	<u>IMRF</u>
Retirees and beneficiaries currently receiving benefits	2
Inactive plan members entitled to but not yet receiving benefits	2
Active plan members	7
Total	<u>11</u>

Contributions

As set by statute, the District's regular plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2019 was 10.25% of members' wages. For the fiscal year ended in April 30, 2020, the District contributed \$34,924 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.35% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.25%.
- **Projected Retirement Age** was from the experience-based table of rates, specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.

- **Mortality** (for non-disabled retirees) - An IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disability Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset class</u>	<u>Portfolio target percentage</u>	<u>Long-term expected real rate of return</u>
Domestic equity	37%	5.75%
International equity	18%	6.50%
Fixed income	28%	3.25%
Real estate	9%	5.20%
Alternative investments	7%	3.60-7.60%
Cash equivalents	1%	1.85%
Total	100%	

No changes were made to the District's assumptions.

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine the Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75% and the resulting single discount rate is 7.25%.

The District's investments policy (the "policy") authorizes the District to invest in securities authorized by the Illinois Public Funds Investment Act.

The District's deposits and investments are subject to the following risks:

- Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The District's investment policy requires the amount of collateral provided to be at a minimum of 105% of the fair market value of the net amount of funds secured.
- Credit risk is the risk that the District's deposits or investments may not be returned due to bank/investment failure or other events. The District's investment policy limits its exposure to credit risk by only allowing investments in certificates of deposits which are federally insured or fully collateralized by the bank, obligations guaranteed by the United States Government, and Illinois Public Treasurer's Investment Pool or Illinois Park District Liquidity Asset Fund, which are both typically federally insured or collateralized by securities of the United States Government.

NOTE 3. CASH AND INVESTMENTS – Continued

- Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy does not limit the District's investment portfolio to specific maturities.
- Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy does not restrict the amount of investments in any one issue. All of the District's investments are in Illinois Funds.

Illinois Funds

Illinois Funds is an investment pool managed by the State of Illinois, Office of Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company but operates in a manner consistent with Rule 2(a)7 of the Investment Company Act of 1940. Illinois Funds is rated AAAM by Standard & Poor's. Investments in Illinois Funds are valued at Illinois Funds' share price, which is the price the investment could be sold. Illinois Funds issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained on-line at www.treasurer.il.gov.

NOTES TO REQUIRED SUPPLEMENTAL INFORMATION

April 30, 2020

NOTE 1. BUDGETS

Budgets for funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The following procedures are used to establish the budgets:

- (a) The District's Director submits a proposed operating budget to the Board of Commissioners for approval.
- (b) The Board of Commissioners makes any adjustments to the budget deemed necessary and approves the proposed budget and appropriation ordinance.
- (c) Public Hearings are conducted by the District to obtain taxpayer comments on the proposed budget and appropriation ordinance.
- (d) Subsequently, the Board of Commissioners approves the final budget and appropriation ordinance.

Expenditures may not legally exceed the budgeted appropriations at the fund level. The budget may be amended by the Board of Commissioners. There were no amendments to the budget for the year ended April 30, 2020.

NOTE 2. EXCESS OF ACTUAL EXPENDITURES OVER BUDGET

Expenditures did not exceed the appropriations for the year ended April 30, 2020 for the general or recreation fund.

NOTE 3. SCHEDULE OF EMPLOYER CONTRIBUTION
