INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
CRETE PARK DISTRICT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **CRETE PARK DISTRICT** (the "District"), as of and for the year ended April 30, 2016, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of April 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 10 to the financial statements, the District adopted new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* in the year ended April 30, 2016. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying financial information listed as other supplemental information in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial

financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

CRETE PARK DISTRICT (the "District") is located in Crete, Illinois (Will County). The District was organized under state law to provide recreation services to local residents.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. REPORTING ENTITY AND ITS SERVICES

Accounting principles generally accepted in the United States of America require that the financial reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Based upon these criteria, there are no agencies or entities whose financial data should be combined with and included in the financial statements of the District. Also, the District is not considered a component unit of any other government entity.

B. BASIS OF PRESENTATION

The District's basic financial statements consist of Government-Wide Financial Statements and Fund Financial Statements.

Government-Wide Financial Statements

The Statements of Net Position and Activities report the overall financial activity of the District (not by fund). The Statement of Net Position reports the District's assets and liabilities with the difference reported as net position. The Statement of Activities compares recreation expenses with program revenues. Program revenues include charges to participants of recreation programs and grants and contributions that are restricted to funding recreation programs. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The District records transactions by funds to aid financial management and demonstrate legal compliance. Major individual governmental funds are reported as separate columns in the fund financial statements and all other funds are combined under a single column. The major funds are the General, Recreation, Debt Service and Capital Projects Funds. Following is a brief description of the major funds used by the District.

General Fund - The General Fund is the general operating fund of the District and accounts for all revenues and expenditures not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. In addition, general operating expenditures and the capital improvement costs that are not paid through other funds are paid from this fund.

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Recreation Fund - The Recreation Fund accounts for revenues and expenditures related to recreation programs offered by the District.

Debt Service Fund - The Debt Service Fund accumulates resources for, and payment of general long-term debt principal, interest and related costs.

Capital Projects Fund - The Capital Projects Fund accounts for financial resources to be used for the acquisition or construction of capital facilities and equipment.

The other governmental funds of the District account for property taxes and other resources whose use is restricted to a particular purpose.

C. BASIS OF ACCOUNTING

Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in fund equity. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to pay current period liabilities. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter (defined as within 60 days after fiscal year-end) to be used to pay liabilities of the current period. Material revenues susceptible to accrual include real estate tax, replacement tax and grant revenue. Expenditures are recognized when the related fund liability is incurred.

The government-wide statements (Statement of Net Position and Statement of Activities) are prepared using the economic resources measurement focus and the accrual basis of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

D. INVESTMENTS

Investments consist of investments held in the Illinois Funds Money Market Funds and are carried at cost, which approximates market.

E. CAPITAL ASSETS

The accounting treatment for property, plant and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements. In the government-wide financial statements capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense on the Statement of Activities, with accumulated depreciation reflected on the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Buildings	15 - 60 Years
Playground Equipment	10 - 30 Years
Maintenance Equipment	5 - 20 Years
Office Equipment	3 - 10 Years
Site Improvements	3 - 60 Years
Vehicles	5 - 15 Years

The minimum capitalization threshold is any item with a total cost greater than \$2,500.

On the fund financial statements, capital assets are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

F. COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave, since it is not paid upon termination. On the fund financial statements, accrued vacation is recorded in the general or recreation funds when payable (i.e. upon resignation or retirement). On the government-wide financial statements, accrued vacation is recorded when earned.

G. DEFERRED OUTFLOWS / INFLOWS OF RESOURCES

The District reports deferred outflows / inflows of resources on its Statement of Net Position and Governmental Funds Balance Sheet.

Deferred outflows of resources represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources until then. The District's only deferred outflows of resources at April 30, 2016 was due to the District's defined benefit pension plan (Illinois Municipal Retirement Fund - IMRF). It consisted of amounts to be recognized as pension expense in future fiscal years for the differences between expected and actual experience and assumption changes.

Deferred inflows of resources arise when resources are received by the District that apply to future periods, so they will not be recognized as revenue until that time. The District's only deferred inflows of resources at April 30, 2016 were levied property taxes intended to finance the next fiscal year.

H. PROPERTY TAXES

Property tax revenues are recognized in the year for which they are levied (i.e. intended to finance). The 2014 levy was intended to finance the fiscal year ended April 30, 2016. The most recent levy (2015) is intended to finance the next fiscal year. Therefore, property taxes receivable related to this levy are recorded as deferred inflows of resources. Property taxes receivable are recognized on the levy date.

Significant dates for the 2015 levy are as follows:

Lien Date	January 1, 2015
Levy Date	November 18, 2015

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Tax Bills Mailed (at least 30 days prior to collection deadline)	
First Installment Due	June 1, 2016
Second Installment Due	September 1, 2016

Property taxes are billed and collected by the County Treasurer of Will County, Illinois. Substantially all of the collected taxes for the 2015 tax levy will be received by the District between June 2016 and December 2016.

I. ELIMINATION AND RECLASSIFICATIONS

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and interfund balances in the fund financial statements may be eliminated or reclassified.

J. NET POSITION

Net position represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District uses restricted resources when an expense is incurred before using unrestricted resources.

K. FUND BALANCE

Equity is classified as fund balance in the fund financial statements and displayed in five components:

Nonspendable - includes amounts not in spendable form or amounts required to be maintained intact legally or contractually.

Restricted - includes amounts constrained for a specific purpose by external parties.

Committed - includes amounts constrained for a specific purpose by a government using its highest level of decision making authority (the Board of Commissioners for the District). This formal action must occur prior to the end of the reporting period, but the amount of the committed balance may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Commissioners that originally created the commitment.

Assigned - includes General Fund amounts constrained for a specific purpose by the Board of Commissioners or by an official who has been delegated authority to assign amounts. The Board of Commissioners has not delegated this authority as of April 30, 2016. Additionally, all remaining positive spendable amounts in government funds other than the General Fund, that are neither restricted nor committed, are considered assigned. Assignments may take place after the end of the reporting period.

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Unassigned - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

In circumstances where an expenditure relates to amounts available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance and unassigned fund balance.

L. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2. DEFINED BENEFIT PENSION PLAN

IMRF Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiple-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 2. DEFINED BENEFIT PENSION PLAN - Continued

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2015, the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	-
Inactive Plan Members entitled to but not yet receiving benefits	-
Active Plan Members	7
Total	7

Contributions

As set by statute, the District's regular plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2015 was 11.96%. For the fiscal year ended April 30, 2016, the District contributed \$31,436 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2015. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

NOTE 2. DEFINED BENEFIT PENSION PLAN - Continued

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2015:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.75%.
- **Salary Increases** were expected to be 3.75% to 14.50%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.48%.
- **Projected Retirement Age** was from the Experience-based Table of Rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.
- For **Mortality** of non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Portfolio Target Percentage</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	38%	7.39%
International Equity	17%	7.59%
Fixed Income	27%	3.00%
Real Estate	8%	6.00%
Alternative Investments	9%	2.75%-8.15%
Cash Equivalents	<u>1%</u>	2.25%
Total	100%

NOTE 2. DEFINED BENEFIT PENSION PLAN - Continued

Single Discount Rate

A Single Discount Rate of 7.48% was used to measure the total pension liability. The projection of cash flow used to determine Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.56% and the resulting single discount rate is 7.48%.

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

For the year ended April 30, 2016, the District recognized pension expense of \$98,187. At April 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Deferred Amounts Related to Pensions		
<i>Deferred Amounts to be Recognized in Pension Expense in Future Periods</i>		
Differences between expected and actual experience	\$ -	\$ 25,449
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	42,451	-
Total Deferred Amounts to be recognized in pension expense in future periods	42,451	25,449
<i>Pension Contributions made subsequent to the Measurement Date</i>	10,826	-
Total Deferred Amounts Related to Pensions	\$ 53,277	\$ 25,449

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

Year Ending December 31	Net Deferred Outflows of Resources
2016	\$ 7,982
2017	7,982
2018	7,982
2019	7,981
2020	(2,631)
Thereafter	(12,294)
Total	\$ 17,002

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 3. CASH AND INVESTMENTS

The District's investment policy authorizes the District to invest in investments authorized by the Illinois Public Funds Investment Act. Reconciled cash and investments at April 30, 2016 were as follows and are all permitted by the District's investment policy:

Illinois Funds Money Market Accounts	\$ 42,361
Old Plank Trail Community Bank Money Market Account	91,164
Old Plank Trail Community Bank Checking Accounts	41,637
Old Plank Trail Max Safe Public Funds Account	<u>77,533</u>
Total Reconciled Cash and Investments	<u>\$ 252,695</u>

Illinois Funds is an investment pool managed by the State of Illinois, Office of Treasurer, which allows governments within the State to pool their funds for investment purposes. These funds are invested in United States Treasury bills and notes. Illinois Fund's financial statements may be obtained from the Office of the Treasurer. Illinois Funds is not registered with the SEC as an investment company, but operates in a manner consistent with Rule 2(a)7 of the Investment Company Act of 1940. Illinois Fund is rated AAAM by Standard & Poor's credit quality rating. Investments in Illinois Funds are valued daily at Illinois Fund's share price, which is the price the investment could be sold for. Investments in Illinois Funds are categorized as Level 1 investments.

Credit Risk (Including Custodial Credit Risk) - This is the risk that the District's deposits or investments may not be returned due to bank/investment failure or other events. The District's investment policy limits its exposure to credit risk by only allowing investments in certificates of deposits which are federally insured or fully collateralized by the bank, obligations guaranteed by the United States Government, and Illinois Public Treasurer's Investment Pool or Illinois Park District Liquidity Asset Fund, which are both typically federally insured or collateralized by securities of the United States Government.

Concentration of Credit Risk - The District's investment policy does not restrict the amount of investments in any one issue. All of the District's investments are in Illinois Funds.

Interest Rate Risk - The District's investment policy does not limit the District's investment portfolio to specific maturities.

At April 30, 2016, the bank balance of the District's deposits with financial institutions was \$226,462. This balance is categorized as follows:

Insured by federal depository insurance	\$ 226,462
Insured or collateralized with securities held by the District or its agent in the District's name	-
Collateralized with securities held by the pledging financial institution's trust department or agent in the District's name	-
Uncollateralized	-
Total Deposits with Financial Institutions	<u>\$ 226,462</u>

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS

NOTE 4. RISK OF LOSS

The District is exposed to risk of loss through property ownership, employee injury, liability of employees, elected officials' action and other items. The District purchased commercial insurance policies to overcome these risks. The District did not have any claims exceeding insurance coverage in the last three years.

NOTE 5. CAPITAL ASSETS

Following is a summary of changes in the capital assets for the year ended April 30, 2016:

The General and Recreation Funds have been used to liquidate other long-term liabilities.

Debt payable at April 30, 2016 was comprised of the following issuances:

General Obligation Limited Tax Park Bonds (Series 2015) of \$228,000 were issued in December 2015. These bonds bear interest at 1.30%. All the principal and interest on these bonds is due in December 2016.

General Obligation Alternate Revenue Source Park Bonds (Series 2012B) of \$300,000 were issued in December 2012. These bonds bear interest between 1.40% and 1.90% and require semiannual interest payments on June 15th and December 15th. Principal payments of \$100,000 are due annually beginning on December 15, 2015.

The combined aggregate amounts of maturities for all borrowings at April 30, 2016 were as follows:

<u>FISCAL YEAR ENDING</u>	<u>PRINCIPAL</u>	<u>INTEREST</u>	<u>TOTAL</u>
April 30, 2017	\$ 328,000	\$ 6,514	\$ 334,514
April 30, 2018	<u>100,000</u>	<u>1,900</u>	<u>101,900</u>
Total Debt Payable	<u>\$ 428,000</u>	<u>\$ 8,414</u>	<u>\$ 436,414</u>

A computation of the legal debt margin of the District as of April 30, 2016, is as follows:

Equalized Assessed Valuation 2015	<u>\$ 132,146,388</u>
Legal Debt Limit - 2.875%	\$ 3,799,209

Audit	7,508
Social Security	30,116
Paving and Lighting	35,684
Total	<u>\$ 245,391</u>

CRETE PARK DISTRICT
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2016

NOTE 10. ADOPTION OF GASB STATEMENT 68

On May 1, 2015, the District adopted the Government Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions*. This Statement requires new financial reporting requirements for pension plans, including recognizing net pension assets or liabilities on the Statement of Net Position.

The District's pension plan is a defined benefit plan with the Illinois Municipal Retirement Fund (IMRF). The District's net pension liability for this plan was \$155,647 and deferred outflows of resources was \$34,872 at April 30, 2015. Therefore, the District decreased its beginning net position by \$128,263 (\$155,647 - \$27,384) on the accompanying Statement of Net Position with the adoption of this Statement. Also, adoption of this Statement resulted in the net position decreasing \$66,751 in the year ended April 30, 2016 due to higher pension expense.

NOTE 11. PRIOR PERIOD ADJUSTMENT

The District recently discovered that bond proceeds from the years ended April 30, 2010 to April 30, 2015 were not correctly allocated between the Capital Projects and Debt Service Funds. Bond issuance costs (legal fees) for these years totaling \$40,025 were recorded as expenditures of the Debt Service Fund, but the corresponding funding for these costs from the annual bond issuances (bond proceeds) was recorded in the Capital Projects Fund. Therefore, the beginning fund balances reported in the accompanying financial statements were restated to increase the Debt Service Fund by \$40,025 and decrease the Capital Projects Fund by the same amount.

NOTE 12. SUBSEQUENT EVENTS

The District has evaluated events subsequent to April 30, 2016 for possible adjustment or disclosure to the accompanying financial statements. This evaluation was done through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

CRETE PARK DISTRICT
NOTES TO REQUIRED SUPPLEMENTAL INFORMATION
APRIL 30, 2016

NOTE 1. BUDGETS

Budgets for funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The following procedures are used to establish the budgets:

- (a) The District's Director submits a proposed operating budget to the Board of Commissioners for approval.
- (b) The Board of Commissioners makes any adjustments to the budget deemed necessary and approves the proposed budget and appropriation ordinance.
- (c) Public Hearings are conducted by the District to obtain taxpayer comments on the proposed budget and appropriation ordinance.
- (d) Subsequently, the Board of Commissioners approves the final budget and appropriation ordinance.

Expenditures may not legally exceed the budgeted appropriations at the fund level. The budget may be amended by the Board of Commissioners. There were no amendments to the budget for the year ended April 30, 2016.

NOTE 2. EXCESS OF ACTUAL EXPENDITURES OVER BUDGET

Expenditures did not exceed budgeted appropriations for the year ended April 30, 2016 for the General Fund or the major special revenue fund (Recreation Fund).

CRETE PARK DISTRICT
NOTES TO REQUIRED SUPPLEMENTAL INFORMATION
APRIL 30, 2016

NOTE 3. SCHEDULE OF EMPLOYER CONTRIBUTIONS

*Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2015 Contribution Rate**

Valuation Date:

Notes

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2015 Contribution Rates:

Actuarial Cost Method:

Aggregate entry age normal

Amortization Method:

Level percentage of payroll, closed

Remaining Amortization Period:

28-year closed period

Asset Valuation Method:

5-year smoothed market; 20% corridor

Wage Growth:

4%

Price Inflation:

3%, approximate; No explicit price inflation assumption is used in this valuation.

Salary Increases:

4.40% to 16%, including inflation

Investment Rate of Return:

7.50%

Retirement Age:

Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2011 valuation pursuant to an experience study of the period 2008 to 2010.

Mortality:

RP-2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2020 using projection scale AA. For men, 120% of the table rates were used. For women, 92 percent of the table rates were used. For disabled lives, the mortality rates are the rates applicable to non-disabled lives set forward 10 years.

Other Information:

Notes

There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2013, actuarial valuation; note two year lag between valuation and rate setting.
